NewEng Hose-reel Irrigation Machines

Water Engineering, Pumping, Irrigation and Fabrication Specialists

- Advice
- Design
- Sales
- Installation
- Service

The NewEng FerboRain range is brought to the UK market by Newsholme Engineering Ltd in collaboration with Ferbo S.r.l. who pioneered the manufacture of turbine driven hose-reel irrigation machines in the 1970's and now produce highly efficient and economic machines with hose sizes ranging from 40mm to 160mm in diameter and up to 800 metres in length.

Newsholme Engineering have many years experience of installing and servicing major irrigation equipment brands such as Wright Rain, Javelin/Irrifrance, Bauer, Kaskad, Nelson, Komet, Caprari, Rovatti, Lowara and others, and offer advice, design and sales of diesel, electric and PTO pumping systems, underground distribution mains, overground pipes and fittings and application equipment including sprinklers, hose-reels, rainguns and booms.

- Optional PRO45 "push and go" user friendly intuitive menu driven interface controller (standard on GH range) with or without GSM mobile phone control and notification system. Manual rewind speed setting and mechanical
- Highly durable PE hose.

compensation standard models

G to GG.

- Hydraulic turntable option (standard on GH range).
- Heavy duty drum with high strength rolled core.
- Adjustable slow closing diaphragm shut down valve.

- Variable trajectory angle rainguns improve water distribution in windy conditions at lower angles.
- Asymmetric raingun trolley can be configured for centre pull or left/right off-set pull in tractor wheeling's.
- In-line filters to suit RW and galvanised lever type couplers.
- High efficiency turbine drive with self cleaning flow path, easy system to free the impeller and change the mechanical seal.
- PTO driven compressor to expel water prior to transport (standard on GHB).
